FIRE-PLANE BUILDING STEPS!

It's two great LEGO® themes in one! We took a LEGO Creator set and a LEGO City set and combined them to build this emergency rescue Fire-Plane. With rotating wings for vertical take-offs and landings, flame suppressor blasters and a high-powered water cannon, it's ready to put out any blaze, any time, anywhere!

You can build the Fire-Plane from pieces in 4953 Fast Flyers and 7945 Fire Station!
